BERGBAHNAUF-/ABSTIEG

Tour description

Experience the winter landscape of Montafon on the new Seebliga winter hiking trail – an easy path beside the slopes with connections to the Panorama Bahn and Kapell Bahn. Combine your experience with the Innerkapell winter hiking trail for unforgettable moments.

Experience the magic of Montafon in winter: snow-covered alpine landscapes, clear mountain air, and the feeling of freedom with every step. On the Seebliga winter hiking trail, you will find all of this.

The path starts at Kapell, near the mountain restaurant, and leads you along the ski slopes to the top station of the Kapell Bahn. An easily walkable path that you can explore at your own pace – ideal for a short hike that leaves space for relaxation.

Upon reaching the Kapell Bahn, you have the choice: you can either return directly via the Seebliga winter hiking trail or enjoy more of the winter mountain world. When the Innerkapell winter hiking trail is open, a detour to Alpe Innerkapell is recommended – although the alp itself is closed in winter, the path inspires with its unique peace and nature.

Or you can decide to ascend even higher with the Panorama Bahn to experience breathtaking views from above.

Whatever option you choose – the Seebliga winter hiking trail gives you unforgettable moments in the winter mountain world.
