This challenging mountain tour takes you into the high-alpine landscape of the Silvretta and offers an impressive panorama of rugged ridges, snowfields, and mighty glaciers. What is the Montafon Alpine Mosaic?

The Montafon Alpine Mosaic showcases the scenic diversity of the Montafon region. Four exploration areas—Verwall, Silvretta, Rätikon, and the valley—illustrate how geology, nature, and the cultural landscape are interconnected.

Along 34 themed trails, you can discover the unique features of these diverse landscapes. Starting points, themes, and stories along the trails continually offer you new perspectives on the Montafon.

So: Choose an exploration area, lace up your hiking boots, and discover the diversity of the Montafon step by step.

Starting point

Silvretta-Bielerhöhe, Lake Silvretta

Directions

From Silvrettasee, the trail leads you along the dam to the turnoff into the Bieltal valley. You'll gain your first elevation gain as you hike along the lively Bieltalbach stream. Passing Radsee, you'll continue hiking through rocky and scree-covered terrain toward Radsattel.

Once you reach the Radsattel, you'll be treated to an impressive view of the gray-green and rust-colored rocky ridges, as well as the white firn fields and glaciers of the Silvretta. The descent to the Wiesbadener Hut starts off somewhat steeper and then winds down in switchbacks to the hut, which lies at the foot of Piz Buin.

The return trip follows the Sommerweg trail. From the Wiesbadener Hütte, you'll first follow the road to the chapel and then a narrow hiking trail through the Ochsenenthal valley. Passing green meadows, dwarf shrubs, and alpine roses, you'll reach the waterfall and then return to the starting point via the dam path along Lake Silvretta.

Getting to the starting point

Getting to the Starting Point

The starting point for the tour is Silvretta-Bielerhöhe near Lake Silvretta. Please note the **operating hours** of the Vermuntbahn.

Important note regarding travel

The Silvretta High Alpine Road is expected to be closed until summer 2030. Therefore, in the summer, you cannot reach the Bielerhöhe directly from the Montafon via the High Alpine Road; instead, you must take the Vermuntbahn from Partenen and then the tunnel bus. You can find more information [HERE](#).

By public transportation:

The Montafon regional bus and the Montafonerbahn offer a convenient and flexible way to get around the valley. Trains and buses run regularly between the towns, every half hour or every hour depending on the route. You can find the right connection for you [HERE](#). The nearest bus stop to your starting point or destination is the Partenen Bergbahnen valley station. From there, it's just a few minutes' walk to the Vermuntbahn valley station.

By car:

Drive to Partenen to the valley stations of the Vermuntbahn or Tafamuntbahn. The two valley stations are just a few minutes' walk apart. Parking is available near the valley stations. Since the parking situation may change due to construction work, please follow the current on-site signage and check in advance for available parking spaces.

Important Information

This tour takes you into high-alpine terrain. Sure-footedness, a head for heights, and alpine experience are absolutely essential.

We recommend that you wear sturdy shoes with a good grip, clothing appropriate for the weather, and bring plenty of food and drinks.

Tips

Enjoy the impressive view of the Ochsentaler Glacier and Piz Buin from the terrace of the Wiesbadener Hütte.
