Directions

The sporty snowshoe route to the Muttjöchle starts from the Kristberg cable car mountain station. It is marked and signposted up to the entry point at Langried (ski slope). From there, follow the tracks of ski tourers and snowshoers through the Muttwald (about 1 3/4 hours to the tree line) to the summit of the Muttjöchle at 2,074 m above sea level.

After a short break, return the same way to the Kristberg cable car mountain station.

Equipment

Snowshoes, telescopic poles with large baskets, avalanche equipment with transceiver, avalanche probe and shovel, day hiking backpack (approx. 30 liters) with rain cover possibly with avalanche airbag, comfortable and waterproof winter boots or sturdy hiking boots that fit into the snowshoe bindings, possibly gaiters, warm and durable clothing in layers, ski jacket and pants, hat/headband, scarf, gloves, possibly ski goggles, sun and rain protection, provisions and drinking water, thermos with hot drink, first aid kit, pocket knife, mobile phone, possibly headlamp and reflectors, maps, bivouac sack and rescue blanket

Tips

Before you take the Kristberg cable car back down to the valley, you must not miss a break with Jürgen and his team at the Panoramagasthof Kristberg. They will spoil you with wonderful delicacies. My secret tip is the Kaiserschmarren with applesauce.
