

Saarbrücken Hut (2,538m)

MODERATE

Tour description

From the Vermunt reservoir lake, this route takes you up to the Saarbrücken Hut. Surrounded by the mighty peaks of the Silvretta massif, you move in breathtaking surroundings.

Your destination, the Saarbrücken Hut, is at (2,538 m). This route perfectly suits the saying 'the journey is the destination'. Throughout the tour, you are surrounded by mighty and impressive peaks. Enjoy the view of the snow-covered mountains. The Saarbrücken Hut lies exactly at the foot of the Kleintitzner. From there, you get a view of the Seehorn as well as the Großtitzner. In winter, hidden under a layer of snow, the Litzner Glacier is located right at the foot of these two mountains. The return route is a pleasurable descent back to the Vermunt reservoir lake.

Directions

From the Vermunt reservoir lake, head south (southwest). The hut is almost always visible. At about 2,000 m the route leads south (briefly over a steep step). Note: Do not go into the valley to the southwest. The customs hut (2,220m) becomes visible on the left side. After about 1,000 m cross the flat "Black Ground" heading south. To the east, a slope leads to the hut, which you will reach in a large arc. The descent follows the same path as the ascent.

Equipment

Tips

Ski tours are endurance sports. Before the ski touring season, train basic fitness in other endurance sports. The valuable stress stimuli for heart and circulation require good health and self-assessment. Avoid time pressure and increase the intensity and range of your tours slowly. Make sure you have energy reserves for the descent. Fluids, energy, and breaks are necessary to maintain performance and concentration. Hot, isotonic drinks are ideal thirst quenchers and sources of warmth. Muesli bars, dried fruit, and biscuits satisfy small hunger on the way.

The professionals from www.montafon.bergfuehrer.at and www.montafon-guides.at will guide you into the dreamlike mountain world in Montafon.
