

Silbertal to Fellimännle alpine hut and back

MODERATE

Tour description

Away from the hustle and bustle of everyday life, you experience the beauty of the winter landscape here in complete tranquility

The name of the mountain village reminds that precious metals were mined at Kristberg until 500 years ago. Silbertal is the perfect place for mystical legendary figures in a wild romantic natural setting. Here you hear stories about the Teufelsbach, the “night people of Silbertal” and the great magician “Kupferlari” – reason enough why once a year the idyllic community becomes a stage. There is hardly anyone in the village who has not yet acted here.
