

Vermunt Lake - Silvretta-Bielerhöhe

Moderate

EINKEHRMÖGLICHKEIT

Tour description

A scenic hike from Lake Vermunt through the high-alpine landscape of the Silvretta up to the Silvretta-Bielerhöhe at over 2,000 meters.

From Lake Vermunt, you'll first hike toward Kromertal and the Saarbrücker Hut, then—after a short stretch of trail—follow a wide gravel path to the turnoff toward Silvretta-Bielerhöhe. After the steepest climb, a narrower hiking trail leads you through the impressive mountain landscape to the Madlenerhaus and from there on to Silvrettasee on the Silvretta-Bielerhöhe.

 02:00 h duration	 5,60 km Length
 2035 m Highest point	 1753 m Lowest point
 283 m Ascent	 1 m Descent

Getting to the starting point

The **Silvretta High Alpine Road is expected to remain closed until summer 2030**. In the summer, you cannot reach **Bielerhöhe** from the Montafon by car or public transportation via the High Alpine Road; instead, you must take the **Vermuntbahn** from Partenen and then transfer to the **tunnel bus**.

You can find more information [here](#).

By Public Transportation

With the Montafon regional bus and the Montafonerbahn, you can get around the valley comfortably and flexibly. The train and bus connect the towns regularly, every half hour or every hour depending on the route. You can find suitable connections in the [cleVVVer mobil schedule app](#). The nearest stop is **“Partenen Bergbahnen Talstation.”** From there, you can reach the Vermuntbahn valley station in just a few minutes on foot.

By car

By car, drive to Partenen to the valley stations of **the Vermuntbahn** or **Tafamuntbahn**. The two valley stations are just a few minutes’ walk apart. Parking is available near the valley stations. Since parking conditions may change due to construction work, please follow the current on-site signage and check in advance for available parking spaces.

Tips

The hike can easily be done in the opposite direction, from **Silvretta-Bielerhöhe to Vermuntsee**.

Be sure to set aside some time along the way to truly take in the high-alpine scenery: Between Vermuntsee and Silvrettasee, the Silvretta—without the dramatic elevation changes—reveals a particularly expansive side, shaped by rock, water, and glacial traces.

Important Information

For this mountain hike, we recommend wearing sturdy, ankle-high hiking boots with a good grip. Be sure to bring plenty of food and drinks. Hiking poles are recommended for the longer ascents and descents.
