Tour description

Join Erna as you discover the mysterious world of the Silbertal and encounter the valley's stories amid ancient mining sites, legendary figures, and untamed nature.

The Silbertal is a legendary side valley of the Montafon with a centuries-old history of mining. Silver was mined here until the 16th century, and traces of this history are still visible today in the landscape and culture of the area. At the same time, the valley is known for its numerous legends, which have been passed down through generations.

The largely untouched Verwall European Nature Reserve, with its pristine landscape and numerous mountain streams, also exudes a special atmosphere. On the Gaglaweg, you'll accompany Erna through this mysterious world and discover how closely nature, mining history, and traditional tales are intertwined.

What is a Muntafuner Gaglaweg?

In the Montafon dialect, "Muntafuner Gaglaweg" means something like "Montafon Children's Trail." For your adventure, you'll need the Gaglaweg backpack. You can rent one for a deposit at one of our tourist information offices or citizen service centers. Inside, you'll find everything you need for your hike. A unique puzzle awaits you on every Gaglaweg trail. Once you've solved it, you'll receive a small gift. You can also purchase one of eleven Erna souvenir jars at a special price of €4.00. Each trail is dedicated to a different theme and takes you through the diverse landscape of the Montafon. So: Grab your backpack, join Erna, and set off on a journey of discovery together. You can find more information about our Muntafun Gagla Trails [HERE](#).

Montafoner Kristbergbahn Valley Station

Directions

From the Kristbergbahn valley station, you'll first hike a short distance into the valley. After a few meters, turn right and cross the bridge over the Litz River. Immediately after the bridge, keep to the left and follow the walking path along the river into the valley until you reach the "Felsa" area.

There you'll find the open-air stage of the Montafon Sagenfestspiele, where old myths and legends from the region are brought to life. Continue along the path until you reach a gate. Next to it, you'll discover a wooden sculpture created by a world champion in forestry work using a chainsaw.

Continue hiking to the next signpost in the "Wüarri" area. There, turn right and follow the path toward the center of Silbertal. Passing over the Burgkopf, you'll reach the lookout point at the protective dam and then return to the town center.

In the center, you'll find the parish church on the left and the municipal office with the citizen service center on the right. The mining museum is also housed in the same building. Continue across the bridge and then keep to the right. After a few meters, you'll reach the Kristbergbahn valley station again.
