Tour description

An enjoyable summit hike from the Kristberg through the Muttwald up to the Muttjöchle, where sweeping views of the Montafon mountains and the Arlberg await you.

The hike to the Muttjöchle combines a leisurely summit hike with impressive panoramic views of the Verwall. Through the Mutt Forest, past blueberry bushes and alpine roses, the trail winds through a landscape that bears the marks of the Kristberg’s mining history.

At the summit of the Muttjöchle, you’ll be treated to views of the Montafon mountains and the Arlberg. This tour also offers plenty of culinary delights: at the Panoramagasthof Kristberg, you can enjoy regional delicacies in a cozy atmosphere.

What is the Montafon Alpine Mosaic?

The Montafon Alpine Mosaic showcases the scenic diversity of the Montafon. Four exploration areas—Verwall, Silvretta, Rätikon, and the valley—highlight how geology, nature, and the cultural landscape are interconnected.

Along 34 themed trails, you can discover the unique features of these diverse landscapes. Starting points, themes, and stories along the trails continually offer you new perspectives on the Montafon.

So: Choose an exploration area, lace up your hiking boots, and discover the diversity of the Montafon step by step.

Getting to the starting point

Getting to the Starting Point

The starting point for the tour is the Kristbergbahn mountain station in Silbertal. Please note the Kristbergbahn's [operating hours](#).

By public transportation:

The Montafon regional bus and the Montafonerbahn provide convenient and flexible travel throughout the valley. Trains and buses run regularly between the towns, every half hour or every hour depending on the route. You can find the right connection [HERE](#). Bus stop at the start/end of this tour: Silbertal Kristbergbahn

By car:

Take the A14 to the Bludenz/Montafon exit, then follow the L188 into the Montafon. After crossing the railroad tracks, turn left at the next intersection and follow the road to the roundabout. From there, follow the signs into Silbertal to the Kristbergbahn. Paid parking is available at the Kristbergbahn valley station.

Important Information

For this hike, we recommend a daypack with a rain cover, sturdy and comfortable footwear, and weather-appropriate, durable clothing layered according to the "layering principle."

You should also bring sunscreen and rain gear, a first-aid kit, a pocket knife, a cell phone, and maps. Depending on your needs, trekking poles and a headlamp may also be useful.

Tips

The view from the terrace of the Panoramagasthof Kristberg invites you to linger and enjoy yourself after your hike.

If the hike to the Muttjöchle is too short for you, you can extend the hike toward the Sonnenkopf and hike back to Kristberg via the Obere and Untere Wasserstubenalpe and the Wildried high moor.

You can find more information about the Verwall European Protected Area and its unique habitats [HERE](#).
