Tour description

The Baukulturweg shows you how closely architecture, lifestyle, and the economy are intertwined in the Montafon region, while guiding you through the diverse landscape around Vandans.

Traditional Montafon houses, modern buildings, and historic structures along the trail tell the story of different eras and ways of life. The region's architectural heritage is closely linked to agriculture, tourism, and the energy sector, illustrating how the use of natural resources has shaped the architecture and cultural landscape.

Along the loop, you'll discover, among other things, the "Manga Hüsl", the historic Montafon cabbage-slicing factory, and the Rodunder reservoirs. In between, forest trails, playgrounds, and the walking path along the Ill River offer a variety of sights and experiences.

What is the Montafon Alpine Mosaic?

The Montafon Alpine Mosaic showcases the scenic diversity of the Montafon. Four exploration areas—Verwall, Silvretta, Rätikon, and the valley—illustrate how geology, nature, and the cultural landscape are interconnected.

Along 34 themed trails, you can discover the unique features of these diverse landscapes. Starting points, themes, and stories along the trails continually offer you new perspectives on the Montafon.

So: Choose an exploration area, lace up your hiking boots, and discover the diversity of the Montafon step by step.
