Directions

From the start, you move directly along the shore of the Silvretta Lake. With it to your left, you walk along the shore to the Silvretta House. Here you turn onto the dam and continue along the lake. After crossing the dam, you leave the shore and follow the path that leads you down to the right to the Madlener House. Upon reaching the Madlener House, you have reached the highest point of this route. From the Madlener House, you move back upwards towards the Silvretta House. From there, you follow the shore path again, which you had already walked at the beginning in the opposite direction.
