Tour description

Join Erna as you discover the mining history of St. Anton im Montafon and follow the traces of gypsum mining through a diverse cultural landscape at the entrance to the valley.

At the entrance to the Montafon valley lies St. Anton im Montafon, a town with a rich and varied history. In addition to traditional legends and myths, gypsum mining in particular shaped the community. Until the 1980s, gypsum-bearing rock was extracted here, sorted, crushed in grinding mills, calcined, and then ground into fine gypsum.

Even today, various traces in the townscape and the surrounding landscape serve as reminders of this era. On the Gaglaweg, you'll walk alongside Erna along the stream, past former mining areas and through quiet neighborhoods, before the trail leads back to the town center.

What is a Muntafuner Gaglaweg?

In the Montafon dialect, "Muntafuner Gaglaweg" means something like "Montafon Children's Trail." For your adventure, you'll need the Gaglaweg backpack. You can rent one for a deposit at one of our tourist information offices or citizen service centers. Inside, you'll find everything you need for your hike. A unique puzzle awaits you on every Gaglaweg trail. Once you've solved it, you'll receive a small gift. You can also purchase one of eleven Erna souvenir jars at a special price of €4.00. Each trail is dedicated to a different theme and takes you through the diverse landscape of the Montafon. So: Grab your backpack, join Erna, and set off on a journey of discovery together.
