Tour description

The moderate Kilka Wald trail has a length of 2,531 meters.

Do you prefer to be out biking in the mountains, ideally with the whole family? Then the new Flowtrails at Hochjoch above Schruns are just right for you! With the spacious gondola, you and your bike can comfortably go up to the Kapellrestaurant, where the Flowtrails start at different difficulty levels. The Kilka Wald Trail is one of the two moderate trails. There is also the moderate Wolfsgruaba Trail and the easy Hubertus Trail.

Equipment

Wearing a helmet is mandatory without exception. Wearing a full-face helmet and additional protective gear such as upper body protectors, knee and elbow pads, as well as gloves is recommended.

Make sure to stay on the marked paths.

Tips

You can access the Flowtrails with the Hochjoch Bahn from Schruns.

Choose from different tickets: for one run, for the whole day, or - if you have a multi-day, season, or annual pass - bike transport only.

Please note that bike transport is only possible with the Hochjoch Bahn.
