Already at the end of the 18th century, the route over the Silbertal Winterjöchle was used as a connection between Vorarlberg and Tyrol. The 42.195 km in a dreamlike setting run from the start in Silbertal away from roads via forest and hiking trails to St. Anton am Arlberg. At the finish, enthusiastic spectators as well as fame and honor await participants - because every finisher is a winner! Of course, this route can be done throughout the summer.
